www.cultivateministries.org

Greetings in Jesus!

So, we made it into another year and if time as we know it continues, you should be getting this newsletter for another year. Either you renewed, were a 30 Club member, or I've heard from you over the last few months so you're on for another year. Many were taken off the list. I do this each year in order to clean up the mailing list.

And **congratulations!** In appreciation for your prayers and support, I'd like to give you something.

During the first week of this year, I'm airing something we just don't hear on Christian radio all that much anymore. The Word of God. Normally, I air a topic for a week, then at the end of each broadcast offer it either on a CD or DVD for a gift of any amount. But I've always had a problem with the selling of the Word of God, so for this first week of the year I offer it for free. Even though we only got a ways into the Book of John, this came from a DVD of the entire New Testament. Over 17 hours! It's a fully dramatized King James version including a trip to the Holy Land! Well, I'd like to offer you a copy of this same DVD. Simply write in and ask for the New Testament on DVD and I'll send you out a copy. Just my way of saying thanks! P.S. If you're a member of the 30 Club, you need not request one because you'll be getting one anyway along with everything else I air.

1929/2009...?

It was last Spring that I brought up that we were going to see big problems in the financial world this fall or perhaps shortly after the election. Well, now hundreds of thousands have lost their jobs and untold multitudes have lost their homes. Many financial institutions have shut their doors and the auto industry is going bankrupt.

The crash of 1929 brought much hardship and despair. Is history repeating itself 80 years later? Will today's crash turn into tomorrow's depression?

It all seemed to kick in on September 17th, 2008. As the day drew to a close, credit markets seized up and banks stopped lending money. Even to each other! And the run on money markets began. President Bush still stated the fundamentals of the economy were strong. He lied. It was in August that two giant mortgage companies, Fannie Mae & Freddy Mac, fell. And on Sept. 7th they were in debt to the tune of 5 trillion dollars! What happened next shocked the world. Wall Street as we have known it for nearly 100 years collapsed in a matter of days. When the world's largest insurer, AIG, looked like the next to fall, the government deemed it too big to fail and propped it up with an 85 billion dollar infusion. The damage didn't stop there. Iceland claimed bankruptcy. The crisis had already begun around the globe. Oct. 10th 2008 marked the end of the worst week on the stock market since The Great Depression of 1929. That day is still remembered as Black Tuesday. Back then, they thought

things would work themselves out. They were wrong! The question today is: Can this next depression, perhaps worldwide this time, be prevented? Or has the train already left the station?

There was a time when no one ever borrowed anything! They just worked hard and saved up enough to buy what they wanted or needed. Scripture tells us not to borrow for the borrower is servant to the lender. But in the twenties, things changed. People started borrowing. They also gambled in the stock market. Even beauty parlors had ticker tapes installed so women could see how their stocks were doing while getting their hair done. Even cab drivers did the stock market. But this was all done using credit. Virtues like thrift, hard work, and saving were done away with. Today, history has repeated itself. Especially in real estate. There are great parallels between 1929 and 2009. But I believe there's a much bigger picture involved this time. Bible prophecy! I believe we are in the latter part of the last generation and the New World Order boys are soon to establish their one world government and one world monetary system which will lead to the mandatory mark of the beast of Rev. Ch. 13. In 1929 some men abandoned their families. Others chose another way out. The suicide rate spiked in America up to 18 for every 1000 people. The highest rate in American history! By 1937, 1.5 million Americans were homeless. They lived in shanty towns they nicknamed Hoovervilles named after Herbert Hoover. The American dream became the American nightmare. Kids who grew up in the Great Depression lost their childhood. Instead of play, they scrambled for odd jobs.

In 1932 they tried a 2.5 billion dollar bailout but it failed. Sound familiar? George Bush did the same thing with a 700 billion dollar bailout. That didn't

work either. Only made things worse. Much worse!

After Hoover went out, a new man with a new plan came in. Roosevelt. FDR was a sweet talker. Using radio, he would have what he called fireside chats with the American people. The banks closed and FDR told the people they wouldn't open again until they were deemed safe. He wanted to convince people their money was safer in a bank rather than in their mattresses. Many believed him. It wasn't really true, but many believed him anyway.

FDR also created many new programs people still rely on today: Social Security, Unemployment Insurance, Minimum Wage Law, Worker's Comp., and Disability Insurance. However, the economy still didn't recover to pre-crash levels in the 30's at all. It wasn't until WWII that we got out of that long slump. We finally returned to precrash levels in 1943, two years into the war. Wars create jobs which in turn, helps the economy. Times of wars are carefully planned out by the New World Order boys but a WWIII would be devastating. So much so that a WWIV would be fought with sticks and stones.

There is no option to return to the old banking system we've been using. The way I see it, one of two things will need to take place. Either the four changes I wrote about in last month's newsletter available on two DVDS entitled: **The Money Masters/Changers** (available for a gift of any amount), or war.

It is true that history does repeat itself and it does appear that we're at the end of the American era. Everything is global now. A big part of the New World Order boy's agenda is to decrease the population of this planet down to 20% of what it is now.

Nuclear could do the job well. And it probably will. The question is: As Christians, what should we be doing? Well, the Great Commission isn't finished yet. I don't see an "amen" at the end of the Book of Acts. Do you? This can be done a number of ways. Just check with the ways and means committee in your thinking. This along with prayer and your willingness to follow the Lord's will and you'd be surprised what you could do.

*Much of this article was gleaned from a CD I plan to air the second week of this month. If you'd like a copy, it's available for a gift of any amount this month. Just ask for the CD entitled: **1929/2009.***

Ohio Guns Exchanged For Groceries...

It seems I keep hearing how various government agencies are asking people to trade in their guns for food, food stamps, gas vouchers or cash. Now why do you suppose they're doing this? Those who believe guns are bad don't know history. Time for another short history lesson...

A Little Gun History Lesson

In 1929, the Soviet Union established gun control. From 1929 to 1953, about 20 million dissidents, unable to defend themselves, were rounded up and exterminated.

In 1911, Turkey established gun control. From 1915 to 1917 1.5 million Armenians, unable to defend themselves, were rounded up and exterminated.

Germany established gun control in 1938 and from 1939 to 1945, a total of 13 million Jews and others who were unable to defend themselves were rounded up and exterminated.

China established gun control in 1935. From 1948 to 1952, 20 million political dissidents, unable to defend

themselves, were rounded up and exterminated.

Guatemala established gun control in 1964. From 1964 to 1981, 100,000 Mayan Indians, unable to defend themselves, were rounded up and exterminated.

Uganda established gun control in 1970. From 1971 to 1979, 300,000 Christians, unable to defend themselves, were rounded up and exterminated.

Cambodia established gun control in 1956. From 1975 to 1977, one million 'educated' people, unable to defend themselves, were rounded up and exterminated.

Defenseless people rounded up and exterminated in the 20th Century because of gun control: **56 million.**

It has now been 12 months since gun owners in Australia were forced by a new law to surrender 640,381 personal firearms to be destroyed by their own government, a program costing Australia taxpayers more than \$500 million dollars. The first year results are now in:

- Australia-wide, homicides are up 3.2 percent
- Australia-wide, assaults are up 8.6 percent
- Australia-wide, armed robberies are up 44 percent (yes, 44 percent)!

In the state of Victoria alone, homicides with firearms are now up 300 percent. Note that while the law-abiding citizens turned them in, the criminals did not, and criminals still possess their guns!

It will never happen here? I bet the Aussies said that too!

While figures over the previous 25 years showed a steady decrease in armed robbery with firearms, this has changed drastically upward in the past

12 months, since criminals now are guaranteed that their prey is unarmed.

There has also been a dramatic increase in break-ins and assaults of the ELDERLY. Australian politicians are at a loss to explain how public safety has decreased, after such monumental effort and expense was expended in successfully ridding Australian society of guns. The Australian experience and the other historical facts above prove it.

You won't see this data on the US evening news, or hear politicians disseminating this information.

Guns in the hands of honest citizens save lives and property and, yes, gun-control laws adversely affect only the law-abiding citizens.

Take note my fellow Americans, before it's too late!

The next time someone talks in favor of gun control, please remind him of this history lesson...
With Guns..... We Are 'Citizens'.
Without Them..... We Are 'Subjects'.

During W.W.II the Japanese decided not to invade America because they knew most Americans were ARMED!

Note: Admiral Yamamoto who crafted the attack on Pearl Harbor had attended Harvard U 1919-1921 & was Naval Attaché to the US 1925-28. Most of our Navy was destroyed at Pearl Harbor & our Army had been deprived of funding & was ill-prepared to defend the country.

It was reported that when asked why Japan did not follow up the Pearl Harbor attack with an invasion of the US Mainland, his reply was that he had

lived in the US & knew that almost all households had guns.

H2O2...?...35% Food Grade Hydrogen Peroxide...?

For many years I've been trying to let people know the importance of having one of these little kits around for making Colloidal Silver, which according to the U.C.L.A Medical Dept., killed every virus tested in their lab. Over 650 of them! Many have obtained these but I think many others are afraid they can't figure out how to hook up the wires or something. Well here's something else you should have around for hard times or any time. This one even kills cancer! And it's already made! H2O2! What's H2O2? Well, everyone know what H2O is, right? Water.

The following is an article taken from the internet that everyone should know about.

The Many Benefits of Hydrogen Peroxide

By Dr. David G. Williams

When it comes to hydrogen peroxide therapy there seems to be only two points of view. Supporters consider it one of the greatest healing miracles of all time. Those opposed feel its ingestion is exceptionally dangerous, and only the foolhardy could think of engaging in such behavior. Before either condemning or endorsing hydrogen peroxide, let's take a real close look at what we're dealing with.

If any substance is interesting, it's hydrogen peroxide. Hydrogen peroxide should really be called hydrogen dioxide. Its chemical formula is H2O2.

The intense bubbling you see when hydrogen peroxide comes in contact with a bacteria-laden cut or wound is the oxygen being released and

bacteria being destroyed. The ability of our cells to produce hydrogen peroxide is essential for life. H₂O₂ is not some undesirable by-product or toxin, but instead a basic requirement for good health.

I'll admit I was skeptical when I first learned about using H₂O₂ orally or intravenously. This healthy dose of skepticism, however, led to a great deal of investigation, clinical work and experimentation. And while I realize a large majority of readers will probably never be convinced that H₂O₂ is a safe and effective compound, I am. Hydrogen peroxide is safe, readily available and dirt cheap. And best of all, it works!

It's obvious that our oxygen needs are not being met. Several of the most common ailments now affecting our population are directly related to oxygen starvation. Asthma, emphysema, and lung disease are on the rise, especially in the polluted metropolitan areas. Cases of constipation, diarrhea, intestinal parasites and bowel cancer are all on the upswing. Periodontal disease is endemic in the adult population of this country. Cancer of all forms continues to increase. Immune system disorders are sweeping the globe. Chronic fatigue, "Yuppie Flu" and hundreds of other strange viral diseases have begun to surface. Ironically, many of the new "miracle" drugs and nutritional supplements used to treat these conditions work by increasing cellular oxygen (oftentimes through H₂O₂ formation). For example, the miracle nutrient, Coenzyme Q10, helps regulate intercellular oxidation. Organic germanium, which received considerable publicity not too long ago, also increases oxygen levels at the cellular level. And even substances like niacin and vitamin E promote tissue oxidation through their dilation of blood vessels.

Hydrogen peroxide is only one of the many components that help regulate the amount of oxygen getting to your cells. Its presence is vital for many other functions as well.

The following is only a partial listing of conditions in which H₂O₂ therapy has been used successfully. (Many of these conditions are serious, if not life-threatening. As always, I would highly recommend seeking the advice and guidance of a doctor experienced in the use of these techniques.)

Allergies, Headaches, Altitude Sickness, Herpes Simplex, Alzheimer's, Herpes Zoster, Anemia, HIV Infection, Arrhythmia, Influenza, Asthma, Insect Bites, Bacterial Infections, Liver Cirrhosis, Bronchitis, Lupus, Erythematosis, Cancer, Multiple Sclerosis, Candida, Parasitic Infections, Cardiovascular Disease, Parkinsonism, Cerebral Vascular Disease, Periodontal Disease, Chronic Pain, Prostatitis, Diabetes Type 2, Rheumatoid Arthritis, Diabetic Gangrene, Shingles, Diabetic Retinopathy, Sinusitis, Digestion Problems, Sore Throat, Epstein-Barr, Infection, Ulcers, Emphysema, Viral Infections, Food Allergies, Warts, Fungal Infections, Yeast Infections, Gingivitis.

Only 35% Food Grade hydrogen peroxide is recommended for internal use. At this concentration, however, hydrogen peroxide is a very strong oxidizer and if not diluted, it can be extremely dangerous or even fatal.

35% Food Grade H₂O₂ must be:

1. handled carefully (direct contact will burn the skin-- immediate flushing with water is recommended).
2. diluted properly before use.
3. stored safely and properly (after making a dilution the

remainder should be stored tightly sealed in the freezer).

One of the most convenient methods of dispensing 35% H₂O₂ is from a small glass eye dropper bottle. These can be purchased at your local drugstore. Fill this with the 35% H₂O₂ and store the larger container in the freezer compartment of your refrigerator until more is needed. Store the eye dropper bottle in the refrigerator. The generally recommended dosage is outlined in the chart below. The drops are mixed with either 6 to 8 ounces of distilled water, juice, milk or even aloe vera juice or gel. (Don't use chlorinated tap water to dilute the peroxide!)

Suggested Protocol

The program outlined is only a suggestion, but it is based on years of experience, and reports from thousands of users. Those who choose to go at a slower pace can expect to progress more slowly, but that certainly is an option. The program is not carved in stone and keep in mind that it can be adapted to fit individual needs. Individuals who have had transplants should not undertake an H₂O₂ program. H₂O₂ stimulates the immune system and could possibly cause a rejection of the organ.

- Day 1** – 3 drops, 3 times a day.
- Day 2** – 4 drops, 3 times a day.
- Day 3** – 5 drops, 3 times a day.
- Day 4** – 6 drops, 3 times a day.
- Day 5** – 7 drops, 3 times a day.
- Day 6** – 8 drops, 3 times a day.
- Day 7** – 9 drops, 3 times a day.
- Day 8** – 10 drops, 3 times a day.
- Day 9** – 12 drops, 3 times a day.
- Day 10** – 14 drops, 3 times a day.
- Day 11** - 16 drops, 3 times a day.
- Day 12** – 18 drops, 3 times a day.
- Day 13** – 20 drops, 3 times a day.
- Day 14** – 22 drops, 3 times a day.

Day 15 – 24 drops, 3 times a day.

Day 16 – 25 drops, 3 times a day.

Maintenance Dosage

In most situations after the above 21 day program, the amount of H₂O₂ can be tapered off gradually as follows:

- 25 drops once every other day for 1 week
- 25 drops once every third day for 2 weeks
- 25 drops once every fourth day for 3 weeks

This can then be reduced to between 5 and 15 drops per week based on how one feels. Those with more serious problems will often benefit from staying on 25 drops three times a day for one to three weeks, then tapering down to 25 drops two times daily until the problem is resolved (possibly as long as six months). Those with chronic systemic Candidiasis may need to start with 1 drop three times a day, then 2 drops three times a day before starting the above schedule. It is important that H₂O₂ be taken on an empty stomach. This is best accomplished by taking it either one hour before meals or three hours after meals. If there is food in the stomach, the reaction of H₂O₂ on any bacteria present may cause excess foaming, indigestion, and possibly even vomiting. Additionally, some animal research indicates that when H₂O₂ given orally combines with iron and small amounts of vitamin C in the stomach, hydroxyl radicals are created (J Inorg Biochem 89;35(1):55-69). The bleach-like aftertaste of H₂O₂ can be lessened by chewing one of the sugar-free cinnamon gums. Some individuals taking H₂O₂ immediately before bedtime have a difficult time getting to sleep. This is probably due to a sense of alertness triggered by an increase of oxygen at the cellular level. The oral dosage schedule is basically

the same for all conditions. There are several points to keep in mind, however.

Some individuals may experience upset stomach. If this occurs it is recommended that one not stop the program, but rather remain at the current dosage level or reduce it to the previous level until the problem stops. (Some patients have been able to solve the nausea problem by taking three or four lecithin capsules at the same time they take the H₂O₂.) During the program it's not uncommon to experience what is known as a healing crisis. As dead bacteria and toxins are released from your body it may temporarily exceed your capacity to eliminate them quickly enough. In some individuals this overload may cause fatigue, diarrhea, headaches, skin eruptions, cold or flu-like symptoms, and/or nausea. One should not discontinue using the peroxide to stop this cleansing. By continuing the program, toxins will clear the body sooner and this healing crisis will pass rather quickly.

If you are not already taking vitamin E and an acidophilus product, I recommend starting them before going on H₂O₂. Vitamin E can make more efficient use of any oxygen available and acidophilus will help re-establish the beneficial bacterial flora in the lower bowel and also help in the internal production of hydrogen peroxide.

If you have an interest in contacting doctors who provide intravenous hydrogen peroxide therapy you can write to the International Bio-Oxidative Medicine Foundation (IBOM) at the address listed earlier in this article. You should also be aware that there are now numerous hydrogen peroxide products on the market. Some are simply peroxide that has been flavored and mixed with sea minerals, aloe

vera, inner tree bark or other ingredients to make the peroxide more palatable (Superoxy, Oxy Toddy, etc.).

Others claim to have developed products that deliver more oxygen than does simple hydrogen peroxide (Aerox, Anti-Oxid-10, Di-Oxychloride, Aerobic O7, Aqua Pure, etc.). Basically you'll end up paying a small fortune and at best achieving the same results you can get for pennies by using hydrogen peroxide.

Conclusion

Hydrogen peroxide is one of the few simple miracle substances still available to the public. Its safety and multiple uses ranks it right up there with DMSO. If you've never used either of these compounds you are overlooking two of the most powerful healing tools ever discovered. Most of us started on hydrogen peroxide shortly after birth. Not only does mother's milk contain high amounts of H₂O₂, the amount contained in the first milk (colostrum) is even higher. This seems only reasonable now that we know one of its main functions is to activate and stimulate the immune system. Although I am a strong supporter of H₂O₂ therapy, I am not suggesting that everyone needs to be using it. There are probably some individuals whose health and well-being would not be enhanced with hydrogen peroxide. But there are also millions of others who are suffering needlessly because they either do not know about hydrogen peroxide or they have been misinformed about its use.

****Source: Family Health News****

Where can you obtain 35% Food Grade Hydrogen Peroxide? Like most things that will keep you from needing a doctor and spending thousands of dollars, the FDA tries to make it hard to get. Your best bet is to call health

food stores. They don't all carry it but some do. You can also order it off the internet but then you'll need to pay for shipping in most cases. Want to do more research? Just go onto the internet and do a word search by typing in: **35% Food Grade Hydrogen Peroxide.**

Did you know...

President George Bush and Barack Obama are cousins! That's right, 10th cousins. They are connected by Samuel Hinckley around 1662. This means they're connected to the Hapsburg dynasty, emperors of the Holy Roman Empire. Just thought it was interesting.

Nebraska Had To Change Child Safe Law...

This is somewhat old news now but I found the whole thing interesting.

Many states have adopted a child safe law. These are primarily for the purpose of mothers with newborns unable to care for them. These mothers could simply drop off their newborn (usually within 30 days from birth) at various facilities with no questions asked. However, Nebraska didn't have an age limit. So the definition of a child was up through the age of 17. Parents started coming in from all over the country dropping off their unruly teens! Bible prophecy tells us that in the latter days there's going to be a whole lot of these. (II Tim 3:2) And there are! I can just imagine what it would be like if all states adopted the same law Nebraska needed to change. Multitudes of parents could use the leverage of that option. (Okay Johnny, your mother and I realize we can't control your actions anymore. Therefore we can no longer take care of you so hop in the car, we're going for a ride). (THE RIDE)! This actually

happened! And during that ride, many kids drastically repented!

What's interesting is that this problem was also existent in Old Testament times as well and God had established the cure for such a situation. "If a man have a stubborn and rebellious son, which will not obey the voice of his father, or the voice of his mother, and that when they have chastened him, will not hearken unto them, then shall his father and his mother lay hold on him and bring him out unto the elders of his city, and unto the gate of his place. And they shall say unto the elders of his city, this, our son, is stubborn and rebellious, he will not obey our voice; he is a glutton and a drunkard. All of the men of his city shall stone him with stones that he die." (Deut. Chapter 21:18-21)

Now, I know this is Old Testament but even the Old Testament has basic truths that stand forever. Things as: "He that spares the rod hateth his son. But he that loveth him chasteneth him". (Proverbs 13:24) (KJV)

Today, we have a growing amount of rebelling Christian children. Maybe you know of some. We have a DVD available dealing with this as well as how to combat it. It's available this month for a gift of any amount and is entitled: **Why Christian Children Rebel.**

Start A Phone Ministry...

Since I had begun suggesting this, some of you have started your own phone ministry. Praise God for that! But there's still many more needed. This is something anyone can do. All you need is an extra phone line, an answering machine or voice mail and an add running in your local paper. It could be A Message for Mormons, A Message for Catholics, A Message for Jehovah's Witnesses, An End Times

Update or even a Prayer Request Message where people can simply call and leave a prayer request.

Often times, a person feels intimidated actually talking with someone the first time, but they will call a recording! All you need to do is simply change your message each week. You'll be surprised how fast your ministry will grow. I can help you get started. Just come up with a topic or type of group you wish to reach out to and let me know. I'll furnish you with the proper tools you might need via CDS or DVDS for free!

Don't be a Jonah and go the other way. Nineveh needs you!

Adopt A Station...

Here's a way you can get the information that I get out to a whole lot more people. I'm doing all I can to keep up the airtime payments on the three stations I'm on. Yet this type of information needs to get out to the masses more now than ever before!

Perhaps there's a Christian station in your area, or any area that would like to have the Cultivate broadcast on. Some stations cost over \$1000.00 a month for this broadcast, but some stations in other areas are as little as \$400.00 a month. Maybe even less!

Perhaps you and/or a few friends at your church or fellowship would like to sponsor the Cultivate broadcast on one of these other stations. Simply call these stations, ask to speak with the owner or station manager and explain to them that you were thinking of sponsoring the Cultivate broadcast on that station and ask how much it would cost. And believe me, because of the financial crisis we're in right now, many are willing to make deals. Who knows, maybe you can talk them into as little as \$5.00 per day.

Something to pray about! Good way to set up treasures in heaven too!

30 Club...

Maybe you're unable to catch the broadcast but would still like to keep up with what's going on.

Here's a great way to do that. We have what's called our 30 Club. Anyone wishing to help support this ministry with a monthly gift of \$30.00 or more each month, may upon request, start receiving everything I air throughout the entire month. Sometimes these are on a CD but most of the time these are DVDS. Normally, DVDS cost \$20.00 each and CDS are \$5.00 each so this is not only a great deal, but it also helps support this ministry. So just let me know when you write if you'd like to become a part of the 30 Club. Thanks!

Ending Note...

What can I say. Here we are in January 2009, we're in a financial crisis, it's Winter and very cold, some people that were without power became hostile toward utility workers and it's been reported that it's very likely that riots will break out as the financial crisis worsens. Yet so many more need to get saved and so much of the Church needs to wake up!

I must say THANK YOU EVER SO MUCH to those of you who help keep this ministry going through your prayers and gifts of support! You guys are special! Those of you who simply can't help in support, you can still pray and it would be greatly appreciated!
