Greetings in Jesus...!

What can I say! We're in August of 2009, it's Summer, it's hot and so much is happening so fast as we approach the last of the last days! I know what some of you are thinking. You're thinking that you've been hearing we're in the last days for quite a while now but we are still here! When do we get to be raptured? Don't worry, God is in control. He has perfect timing. You and I are still here because our job is not yet over. We must work now while it is still day for night cometh when no man will be able to work. This Scripture is personal to me because I see how fast political and religious correctness is taking over and here I am, the last ex-Mormon in the world with a radio broadcast exposing how so many religions are wrong. It's a wonder I'm still around! But thanks to God for His mercy, grace and protection and also to you guys for your prayers and financial support that this ministry is still existent!

Many of you have played Monopoly. You know how it works. The above picture speaks for itself. This is what's happening in this country fast! I'm not going to write a long drawn-out article on this because as they say, a picture is worth a thousand words. But I will say this. What this picture does not depict is the current healthcare plan. As someone has said, power corrupts. And total power corrupts completely! History is repeating itself. What is this called? Communism! The word Communism comes from the word communal or community. In this case, a world community or a world government. While most Americans (including some Christians) hate to see what's happening in this country, I'm afraid I need to say that most Christians have no idea where we are in light of Bible prophecy! This is so sad! And what's worse than this is that I have seen a pattern. Here it is... The same Christians who are fighting so hard to save this country are no longer saving souls for the Lord! Let us not forget the Great Commission!

Catholicism in Crisis?

For many years, I've been receiving a Catholic newsletter. They think I'm a devout Catholic. Well, now they've sent me this book, [EWTN, A Network Gone Wrong](#). Apparently, Catholics are upset at the Catholic Channel, EWTN.

Too much compromise. Too ecumenical. Just not quite Catholic enough anymore. A major earmark of any cult group is their teaching that they and only they are the one true church and that outside of this group, there is no salvation. Same thing holds true with Catholicism. The following are a few quotes from Chapter 8 of this book, which is actual Catholic doctrine.

There is but one universal Church of the faithful, outside which no one at all is saved. (Pope Innocent III, Fourth Lateran Council, 1215)

We declare, say, define, and pronounce that it is absolutely necessary for the salvation of every human creature to be subject to the Roman Pontiff. (Pope Boniface VIII, the Bull Unam Sanctam, 1302)

The most Holy Roman Church firmly believes, professes and preaches that none of those existing outside the Catholic Church, not only pagans, but also Jews and heretics and schismatics, can have a share in life eternal; but that they will go into the eternal fire which was prepared for the devil and his angels, unless before death they are joined with her; and that so important is the unity of the ecclesiastical body that only those remaining within unity can profit by the sacraments of the Church unto salvation, and they alone can receive an eternal recompense for their fasts, their almsgivings, their other works of Christian piety and the duties of a Christian soldier. No one, let his almsgivings be as great as it may, no one, even if he pour out his blood for the Name of Christ, can be saved, unless he remain within the bosom and the unity of the Catholic Church. (Pope Eugene IV, the Bull Cantate Domino, 1442)

Now the holy Church universal proclaims that God cannot be truly worshipped, saving from within herself, asserting that all they that are without her shall never be saved. (Pope Saint Gregory the Great, 590-604)

"infidels, heretics, schismatics and excommunicated persons" are "excluded from the Church's pale" (Catechism of the Council of Trent, 1566)

...the people must be assured, Venerable Brethren, that the profession of the Catholic Faith is alone the true one, since the Apostle tells us that there is one Lord and one baptism. As Jerome says, the man who eats the lamb outside of this house is profane, and the man who is not in the ark of Noe is going to perish in the deluge. Neither is there any other name apart from the name of Jesus Christ given to men by which we must be saved. (Pope Pius VIII, 1829-1830)

"The holy universal Church teaches that it is not possible to worship God truly except in her (the Catholic Church); all who are outside her will not be saved" (Pope Gregory XVI, 1831-1846, quoting Pope St. Gregory the Great)

It must be held as a matter of faith that outside the Apostolic Roman Church, no one can be saved; that this is the only ark of salvation; that he who shall not have entered therein will perish in the flood. (Blessed Pope Pius IX, 1846-1878, Singulari Quadem)

Outside the true Church are: Infidels, Jews, heretics, apostates, schismatics and excommunicated persons...No one can be saved outside the Catholic, Apostolic and Roman Church, just as no one could be saved from the flood outside the Ark of Noah, which was a figure of the Church. (The Catechism of Pope St. Pius X, 1903-1914)

As you can see, the Roman Catholic church absolutely teaches that outside of her, there is no salvation. True Christians are considered to be "separated brethren". So the next time you're witnessing to a Catholic, realize these precious souls are lost.

Seems kinda ironic. At the same time we're watching the great apostasy taking place in the Christian Church, we're also witnessing what Catholics think is the apostasy in their church. But the reason so many Catholics are leaving their faith in the Catholic church is because they're putting their faith in Jesus Christ alone, leaving the Catholic church and joining Christian churches.

Do you know a Catholic who needs to get saved? One really great tool for this is a DVD entitled: **Catholicism: Crisis of Faith**. Available for a gift of any amount this month.

What's with all these deaths lately?

Ed McMahon, Farrah Faucet, Michael Jackson, Billy Mays & Walter Cronkite. Now I can understand Ed McMahon and Walter Cronkite. McMahon was 86 and Cronkite 92!

By the way, in my opinion Walter Cronkite was the best reporter ever! He started when he was a kid selling newspapers. Sometimes he'd sell a paper that had one of his own reports in it! The Discovery Channel did an 8-part series narrated by

Cronkite himself from being a newspaper reporter as a kid, radio, TV as it was invented and all the way through his life. He covered the 1929 crash, WW II, Viet Nam, Presidential candidates from long before I was born and so much more. I taped the whole thing and was able to get it to fit onto two DVDs so if you'd like a copy, just let me know.

Now, Farrah was battling cancer for some time. But Michael Jackson and Billy Mays were only 50! Let me mention something on both. First, Billy Mays. You know, he was the pitchman you found shouting at you about Oxy Clean or the Awesome Auger. Odd thing about that. I had ordered that Awesome Auger and the day it arrived, as I opened the box, The Discovery Channel was doing a tribute to Billy Mays and as I was standing there holding this thing, they played Billy shouting out, "Billy Mays here with the Awesome Auger! Takes the hard work out of yard work!" By the way, it really does work great!

Now, not everything was reported about Michael Jackson. Michael Jackson, who they said was the greatest entertainer in the world, spent hundreds of thousands of dollars on cattle deaths for the purpose of blood sacrifices against his enemies. Sounds like Satanism to me. Michael and most of his family were, and many still are, Jehovah's Witnesses! Jehovah's Witnesses are taught that Jesus Christ was really the Archangel Michael, that He did not die on the cross but on a torture stake, and that Christ has already returned invisibly back in 1914. They also do not believe in a literal hell, but simply annihilation. They also teach that only 144,000 chosen Jehovah's Witness will reign with Christ. And of course, they believe they are the only true church. The Watchtower Bible & Tract Society has predicted the end of the world in 1914, 1915, 1918, 1925 and 1975...so far!

My heart really goes out to the Jehovah's Witnesses because they are striving so hard to earn their salvation by going door to door passing out Watchtower publications. What's really sad is so many Christians just turn them away instead of taking the time to share the truth with them. How hard can it be! We don't even

have to go to them. They come to us! I've spent much time with these precious souls. I attended their Kingdom Hall getting to know them well and I'd have to say they are really sincere. But they're sincerely wrong! You and I must remember that we are God's only representatives on Earth to reach out to them. When they come to your door, you are held accountable before the Lord on what you do. Are you going to turn them away? Or are you willing to witness to the Jehovah's Witness? A good way to be ready is to simply learn a few basics ahead of time. I recommend the DVD entitled: **Witnesses of Jehovah** or another one which is really two on one DVD entitled: **The Witness at Your Door & The Witness Goes Out**. Either/or are available for a gift of any amount this month.

The 40th anniversary of the Moon landing

During the first week of July, I aired the audio portion of the DVD entitled: **A Funny Thing Happened on the Way to the Moon**. I didn't realize just a couple weeks later was the 40th anniversary of this event, nor did I realize they were going to make such a big deal out of it. If I had, I would have waited a couple weeks and aired it at the same time. Yes, a funny thing did happen on the way to the Moon back in 1969. It didn't happen! I know this sounds crazy but it really didn't happen! It couldn't have. Why? Because of the Van Allen radiation belts surrounding the Earth. They start about 1000 mile up and continue for about another 1000 miles. And they're lethal! No living thing can get through them. So much for living aliens from other planets visiting us! We can send our toys through these belts and beyond but nothing living could ever survive those radiation belts. We can't do it today and if we can't do it today, we surely couldn't do it in 1969! In 1969 I was 16 years old and watching this great event on our black & white TV set. I was amazed. The whole world was. We watched Walter Cronkite (who's been given the title, "The Most Trusted Voice in America") without words as man landed on the Moon. But he was duped! So was I. And so were millions and millions of others around the world! Including Russia, which is the main reason the hoax was necessary to begin with.

What they didn't know in 1969 was how far technology and the information highway would be just 40 years later. If you want to see proof that the Moon landing was the hoax of the century as well as an understanding the reasons why this was done, you need to see the Christian made DVD entitled: **A Funny Thing Happened on the Way to the Moon**. Available this month for a gift of any amount.

Something else about gravity... Someone asked me a question the other day that made me have to do some research. They asked me, How could men be sent up to work on satellites if the Van Allen Radiations Belts were a problem? Turns out, satellites that are too near to, or in, or beyond the belts don't get worked on. But when the Hubble telescope needed to be adjusted, there was no problem because it's orbiting at about 270 miles high. Far below the danger zone. Also this... Did you know that if you were on the shuttle which normally orbits at around 250 miles up, that you still weigh about 90% of what you would still standing on the Earth? That's right! It only appears the crew is weightless because they and the shuttle are in free-fall. I've done this in a plane but for only less than a minute because the ground was coming up. I was only a few thousand feet up, not 250 miles. When we send something into orbit, we never send it beyond the gravitational pull of the Earth. If we did, it would just keep going! How far would something need to be from the Earth to escape the gravitation pull of the Earth? Pretty far! I believe I read the Moon is about 250,000 miles away, yet we're effected by its gravitational pull. That's what controls our tides. The good news is that all of this stuff we're polluted space with around our planet, must eventually fall back into the Earth's atmosphere and almost all of it will be burned up.

Signs in the Heavens?

Jesus told us there would be signs in the heavens in the latter times. There will be many during the 7-year tribulation period! But even now we are seeing things escalating rather fast. On July 22nd there was a total eclipse of the Sun seen on the other side of the world. And then shortly after that, it was reported that something the size of the Earth came crashing into

Jupiter! Now we need to ask the question... Why didn't they see this coming until after the fact? It was reported that this may have been a comet! A comet? Just a few years ago they had seen an asteroid for days in advance heading toward Jupiter. It was filmed live as it broke up into pieces and crashed! A comet is much larger! You might remember the Hale Bop comet as it appeared in our skies for over a month. And something the size of the Earth is much larger yet! Again, how could they have not seen this coming!

The W.H.O. declares over 700 dead from the swine flu...

This is what the World Health Organization declared as of the latter part of July. But they are also saying this could become a world-wide pandemic by this fall! Not to mention this Winter! There may or may not be enough vaccine to go around. And I don't know if I would really trust in the vaccine even if it is available. Nor all of the declarations of the World Health Organization. These are the same New World Order people that introduced A.I.D.S. into Africa. This was a manmade mixture that could never have been created in any natural way. And, they're still calling this the Swine Flu even though it was originally called the Bird/Swine flu, which can also not have come into being by any natural way.

Why not just play it safe with Colloidal Silver, which according to the U.C.L.A. Medical Department killed every virus tested in the lab. Over 650 of them! It also kills any infections! You can buy it in many health food stores, however it's quite expensive. Or you can make it at home for pennies per gallon! We still have kits for making Colloidal Silver and they are still only \$20, but due to the rising prices of silver and batteries, this price will have to go up soon. I'm still selling these for what they cost me to make.

Also, if you have not yet seen the DVD entitled: **Suppressed Medical Discoveries**, you should! It is available for a gift of any amount this month.

Fingerprints on DVDS/CDS?

It seems from time to time someone calls us or send us back a CD or DVD saying it doesn't work. Much of the time it's because people have switched over from a VCR to a DVD player but don't have it set up right. If you have a VHS and DVD player, you may have to switch the mode on your remote. So they send it back to me and it works just fine. Also, sometimes we're sent back a DVD or CD with fingerprints all over the shiny side (the "down" side). I wipe them clean and they work just fine. These discs are not audio cassettes or VHS tapes. Sometimes just one fingerprint will cause them not to play. You can clean them most of the time by simply using a paper towel or toilet tissue. Also, be sure to replace them into the paper sleeves they come in to keep them from being scratched. Now if you do receive a CD/DVD that doesn't work for some reason and you know everything is hooked up correctly and the disc is clean, please do return it and it will be replaced with no charge.

Could this be the end of the last public ex-Mormon on Christian radio?

You would think that Christian radio stations would give a break to those whom they air. Especially to those on the front lines dealing with major issues as the salvation of souls, where we are in light of Bible prophecy, and basic survival in these last days. Unfortunately, this has not been the case. As you may know, many good Christian radio ministries have already been taken out due to a lack of financial support. Others may be taken out soon for the same reason. Ironically, there are those who preach a different Gospel that are still doing well. The "name it - claim it" prosperity teachers who have been bringing in tons of money for so many years from those with itching ears are doing well indeed! They have acquired many riches in this world. Some are under congressional investigations but this can take a long time. It's already been years! They will ultimately have to answer to God.

Please remember that small ministries such as this one are really taking a beating due to the economy. We don't have a huge support base. This newsletter only goes out to less than 400 people, not 400,000.

So anything that you could do to help out would be greatly appreciated.

What is Acai'?

There is a lot of talk about the Acai berry out there. There are claims of people achieving weight loss, energy boosts, and many other benefits. There are also lots of scams to beware of.

The acai "berry" is the fruit of the acai palm. The fruit is actually a drupe, as are apricots, almonds, peaches, mangos, and olives.

As of March 2009, there have been no controlled studies on the claims made for the acai berry, but it does contain many nutrients and antioxidants. I've been taking an acai supplement for several weeks and have had good results.

There are also several scams out there, many emphasizing weight loss result, some in conjunction with a colon cleanse. You sign up for these "free trials" and give your credit card to pay for "shipping" charges, but you get billed a recurring charge for periodic shipments that are very hard to stop.

I buy my supplements from TRC Labs and have been happy with all of their products. They've been in business for over 27 years, and have done business with many well-known firms. Here is what they have to say about the Acai Berry:

"Some experts consider the Acai Berry to be the world's most 'complete' food because the Acai Berry pulp is chocked full of an almost perfect essential amino acid complex and essential fatty acids. It has 10 to 30 times the antioxidants of red wine. It contains 60% Oleic acid (an omega 9 fatty acid), 12% linoleic acid (an omega 6 acid), and a full array of vitamins, plant minerals and trace elements. It contains a large amount of plant sterols and a significant amount of natural fiber and natural calcium.

"Acai Juice has become very popular after thousands of people attested to nearly miraculous results they attained after consuming the Juice for several months.

Some minor clinical tests verified these claims. Acai contains a rich blend of B Vitamins and natural fiber, natural calcium, plant sterols, numerous minerals and much more, including Omega 3, 6, and 9 fatty acids. The combination of natural ingredients produce very powerful antioxidant compounds that allow for the neutralization of potentially harmful free Radicals."

If you are interested in trying this supplement out for yourself, you can call them at 800-421- 310 or visit their website at <http://www.trclabs.com> to order. If you mention my name and my customer number 28310, I can get credit for referring you. And you can do the same if you like! In fact, if you refer enough people you may end up receiving all of your liquid vitamins and other food supplements absolutely free. Just let them know when you call.

30 Club...

Maybe you're unable to catch the broadcast but would still like to keep up with what's going on.

Here's a great way to do that. We have what's called our **30 Club**. Anyone wishing to help support this ministry with a monthly gift of \$30.00 or more each month, may upon request, start receiving everything I air throughout the entire month. Sometimes these are on a CD but most of the time these are DVDS. Normally, DVDS cost \$20.00 each and CDS are \$5.00 each so this is not only a great deal, but it also helps support this ministry. So just let me know when you write if you'd like to become a part of the 30 Club. Thanks!

Ending Note ...

Thank you again ever so much for your prayers and gifts of support. Without you guys this ministry would have been taken out a long time ago. Keep looking up, for your redemption draws near!

Your Because His

JIM
