

CULTIVATE MINISTRIES NEWSLETTER...June...2010

P.O. BOX 526 Florissant, CO 80816 (719) 630-1222 www.cultivateministries.org

Greetings in Jesus!

Is it just me, or does it seem each month that comes, gets here a little faster than the one before!

Let me start by saying **THANK YOU SO MUCH** to those of you who help to keep this ministry going through your prayers and gifts of support!

Before we jump into things, let me mention that recently I went into Woodland Park for supplies. A mountain town. On my way home, I stopped by Burger King to get dinner. There were four guys behind the counter. Only one serviced the counter taking orders because he was the only one who spoke **some** English! Everything else I heard was Spanish! Funny how the Lord shows me what He want me to get out to you guys.

Well, let's get right into an update of things. Do feel free to make copies of this newsletter and share with others!

Police State, F.E.M.A. Camps and Executive Orders

Today, we are living in perilous times. Many of you have heard of the FEMA Camps we have throughout this country. F.E.M.A. stands for Federal Emergency Management Agency. Its role? It coordinates the government in preparing for, preventing, mitigating the effects of, responding to, and recovering from all domestic disasters whether natural or man-made. Including acts of terror.

Following a string of natural disasters in the 60's & 70's, President Jimmy Carter signed Executive Order 12127 and merged nearly 10 federal agencies into what we now know as FEMA. In March 2003, FEMA joined 22 other Federal agencies to become part of Homeland Security. In 2005 Hurricane Katrina hit the gulf coast in most notably the city of New Orleans. Federal and local authorities encouraged those who couldn't evacuate the city to go to the Superdome where there would be assistance to help them. You know what happened. Not much assistance at all. Many died a long torturing death waiting for that assistance. That was a FEMA Camp!

There have been many other FEMA camps set up throughout this country. But many believe these are going to be used as concentration camps for U.S. citizens. And many more executive orders have been put into place - none of which have we voted for!

Let's take a look at a few. Executive Order 10990 allows the government to take over all modes of transportation. This includes everything from roads to seaports.

Executive Order 10995 allows the government to seize and control all communications media. There goes the Cultivate broadcast. Wait! There goes Christian radio and TV! Wait! There goes the Fox network, the Glenn Becks, the Rush Limbaughs and anyone else that's getting out any truth at all, whether Christian or not! These people will be considered possible terrorists!

Executive Order 10997 allows the government to take over all electrical power, gas, petroleum, fuels, AND MINERALS! Wait a minute here! And minerals? Now why do you suppose they would want to take over all minerals? Think about it! They know many have been preparing for years now for the financial

crash through the purchasing of precious metals as gold, silver etc. These are also minerals! Now for those of you who have been able to prepare for the financial crash in this way, I wouldn't worry about it all that much unless you have a paper or electronic trail. And even then, they don't even start to have the manpower to follow up all that much. At least not yet! It's not likely they're going to go door-to-door with metal detectors. It's best to just put such metals away in non-obvious locations. Safes are not the best places to keep anything really "safe". I have a friend in Tennessee who had some special music lyrics on paper which he kept in a safe. His apartment was broken into and that was the first place the thieves went to. How much more efficient do you think an organized government takeover will be?

Executive Order 10998 allows the government to seize all forms of transportation **including personal vehicles**. Now why do you suppose they would want to do that? The answer in a nutshell is **control**!

Executive Order 10999 allows the government to take over all food resources including farms. Now this does NOT include back yard gardens! This nation started as a nation of farmers. As a kid, the farm I grew up on only had one acre but we grew enough food on that acre to feed ourselves and others as well! We also raised chickens! So we had free eggs, fruits, veggies, and meat! It would be wise for anyone with a little dirt around to use it accordingly. You might also want to learn about **Food Storage Secrets**. We have a 3-DVD set on this **available for a gift of any amount this month**.

Executive Order 11000 allows the government to mobilize civilians into work brigades under government supervision. Can you see what's coming down here, Church? I recently got a call from a gentleman telling me how he and his wife were driving early one morning in the S.E. area of Minnesota, where they saw a train with those three-story-high boxcars I reported on a couple years ago. The train was heading south at the time. So apparently, these are on the move. Are they preparing for something?

Back in 1986 they opened 12 secret army camps to see if they could keep them secret while they held federal prisoners. They now hold state prisoners as well. The federal prisoners were given a few years off if they agreed to keep things silent from their families. These "camps" were kept secret for 11 years. They were eventually reclassified and made known. Now they have doubled! These were labor camps. Now FEMA Camps. You can do a Google search and type in "Civilian Inmate Labor Program." This is to establish the setting up of prison labor camps in army installations!

Executive Order 11002 designate the Postmaster General to operate a national registration of all persons (more big brother).

Executive Order 11051 specifies the responsibility of the Office of Emergency Planning and gives authorization to put all Executive Orders into effect in times of "increased international tensions and economical crisis." We're already in an economic crisis! We already have increased international tensions!

Executive Order 11921 says that if a President declares a state of emergency, nothing can even be reviewed by Congress for six months! It is common for a phony crisis to be created so these Executive Orders can begin! What Hitler did in the 40's (which was not really that long ago) could take place here pretty much overnight. And if we've learned anything, it's that history does repeat itself. So now we have things set up to immediately establish a dictator president! Today, we have Americans who are fighting to keep our Constitution. These are now being referred to as terrorists!

They are now working on building 3 one-million-person FEMA Camps. Three million people? Who are these people going to be?

Remember, back in 2006 I started reporting that a part of the New World Order plan was to drop the borders between Canada, the United States, and Mexico. Their mandate for this at that time was 2010. They may still be on schedule.

Here's what I believe is taking place. First, they create a problem. In this case, they first continue allowing illegals to cross the border.

The situation gets bad. So then they pass a law (which is not a new law at all), as was done in Arizona, for police to check further on illegals. The legal citizens are happy about the "new" law, but now they're no longer the majority. The state has riots because there are now SO many illegals. Soon, other states want to join in. This, too, hits the fan. So then, the NWO boys who've established these FEMA camps say these are for the purpose of rounding up the illegals from Mexico. The legal Americans rejoice, thinking the government is finally doing something to fix the problem. How great President Obama is! But this is just a cover. These FEMA concentration camps would really be for the purpose of establishing martial law, suspending the Constitution, taking over the media, and now there is a place to put these radical Americans, who are now "terrorists" because they've been trying to save the Constitution and this country. Many of these people are Christians!

Well, maybe Christian patriots have put the cart before the horse. Maybe we're supposed to be saving souls rather than this country. Ya think? But then there's that double thinking. If we lose the Constitution of the United States, we'll lose the ability of the preaching of the Gospel. The Great Commission!

It all comes down to Bible prophecy. If you have been a diligent student of Bible prophecy, you know that America is not even mentioned, as other predominate nations have been in Scripture. It does appear that something major will take place concerning America that brings us into a less predominate position. Or perhaps, no position at all.

If you are wise, you might do well to do two things. #1. Do all you can to bring people to Christ in this late hour. And #2, prepare for hard times to once again come upon this nation. And don't forget to pray!

Much of this came from a new DVD entitled: **Police State 4: The FEMA Camps**. If you would like a copy, it's available for a gift of any amount this month.

Silver Polish?

In last month's newsletter, there was a short article entitled: **Why Silver? Why Now?** Well, I messed up with both the phone number and the web address so we'll try again, along with this article by Jason Hommel, who will add a little more polish of understanding about silver.

Now keep in mind, I am not receiving any commissions of any kind here, nor do I have enough paper money to invest myself. I'm just trying to get information to those of you who might be able to prepare for what's coming.

Ten Topics on Silver (Each in exactly 101 Words!)
Silver Stock Report

Usury

Lending at interest (usury) is the bane of our era, the highest crime of the ages, condemned by prophets, regulated by God, and ignored by modern man. God said no usury, unless you loan to other nations, but every seventh year is supposed to be a time of debt forgiveness, thus, it's a plan to teach the nations about God, yet abused instead to enslave people into perpetual bondage. Usurers want the whole earth, plus 6%! Lending is not so much a problem as is the interest! When gold is money, gold grows more valuable over time, so "increase" is built in!

The Big Picture for Silver

No nation on earth uses silver or gold as a circulating medium of exchange, or common currency. This trend to not use silver started over 150 years ago, and has come to an end. If monetary demand for silver changes, it can only go up. Money is also a store of value, and people are recognizing that more and more. About 65 years ago, at the end of WWII, the world entered the age of electronics, and the demand for silver in electrical contacts soared tenfold. This has consumed more than half of all the silver ever mined since the beginning of time.

Supply and Demand for Silver

The world annual mine output for silver is about 600 million oz., with about another 200 million oz. from recycling, and another 100 million oz. from selling from other sources. Industrial consumption is about 45%, jewelry consumes about 25%, photography is down to about 15%, leaving about 15% for investor demand. Investors buy about 100 to 150 million oz. of silver per year, which is barely \$2 billion. Yet the BIS estimates

that most all of the worlds' banks have \$200 billion in "other precious metal" (or silver) notional value worth of derivatives on the books, indicating that all paper silver is all fraud. Paper money, unbacked by silver, is fraud, too.

Eternal Properties of Silver

Silver is rare, dense, fungible, divisible, transportable, non perishable. These qualities unique to both silver and gold make them both an excellent store of value, unit of account, and medium of exchange. Silver is the best reflector, and the best electrical conductor in the world, and is a great germ killer, too. These qualities make silver valuable in tiny quantities to industry. Gold conducts less well than silver, does not kill germs, is too expensive to consume, and is not a viable alternative. Neither is paper. Gold coins smaller than 1/10 of an oz. are not practical, making silver essential as money.

Exchange Traded Silver Funds

JP Morgan is the custodian of the silver for the silver ETF, SLV. JP Morgan is also the largest trader of derivatives on the earth, and the holder of the large excessive and concentrated short position in silver on the COMEX, and is being investigated by both the CFTC and the US Justice Department. The proof is not on me to prove they don't have the silver. Proof should be on them to prove that they are an honest custodian. SLV's silver is not able to be audited, and you can't take delivery. Silver is payment in full, not a promise.

Futures Contracts

Many people are deceived by greed, thinking they can earn more money if they buy silver on leverage, putting only part of the money down as payment, to enable them to "control" more silver. But if they don't take delivery of silver, then they are not buying silver, and not controlling any silver, but only get a phantom promise of silver from entities who could not possibly have enough silver to make full delivery. It's like the fraud of fractional reserve banking, but business as usual today. I believe it is a moral failure to be deceived by these con games.

Silver Certificates

Certificates and storage programs are a worse con. Pay full price to be conned with storage of silver that does not exist! Canadian banks and Morgan Stanley have both been caught selling non existent silver to clients in the past ten years, and their defense is that it is business as usual; that everybody does it. Sending brokerage statements showing silver amounts, when no silver exists, should be one count of mail fraud for every customer! It amazes me that many people do not have the courage and responsibility that is required to guard their silver. No work equals no results.

Collector Coins

Many investors are lured into the precious metals market by dealers such as Goldline who is advertised on Glenn Beck. They mark up "collector" coins anywhere up to 30-100% over spot. There is no crime in charging a high price, but the scheme is borderline criminal. By selling older coins as "non-confiscable," they confiscate nearly half of an investor's money right off the top! By selling those same coins through a leverage program, they don't even have to deliver if the customer does not come up with all the money, and thus, may be selling collector coins that do not exist.

Silver Stocks

I was guilty of talking up silver stocks, as a way to gain leverage to the rising price of silver. What the market gave, it took away. Even my extremely profitable newsletter that showed a look at my portfolio is now in the dustbin, a relic of internet history. But new internet investors have popped up, claiming great gains as they bought on the dip in 2008. Too

late to chase such gains now. Stocks are subject to capital gains, nationalization risk, mismanagement risk, debt risk, funding risk, futures market hedging risk, mine collapse risk, strike risk, tax risk. Why risk it?

Bullion Items

When you buy physical silver, it comes in the form of actual shapes, which we call products. Popular forms of 99.9% pure silver are 100 oz. bars, 10 oz. bars, 1 oz. rounds, 1 troy oz. silver Eagles. There is also 90% silver coinage dated from 1964 and earlier. Occasionally, we get odd weight silver bars, 5 oz. silver bars, 1 oz. silver bars or other odd shaped silver pieces. And there are also the 1000 oz. COMEX bars, each one varies by weight up to 10%, with the exact weight stamped on the bar. Ten oz. bars are popular; they used to be the most expensive form, but now, the cheapest.

Oil & water don't mix but oil & hay does!

Well it's been a while now since that oil leak at the bottom of the ocean began. As you know, it's really doing some damage. We have seen all these ways they've tried to fix the problem. And who knows how much they will have spent on this!

I have my own motto. "Simplicity is always best." One day I received an email with a short Youtube video attached. It was a couple of good ol' boys with nothing but a couple large clear glass bowls of water. They poured into that water some really black dirty oil. It went everywhere. What a mess! They then took some hay and dropped it into that water and swished it around a little, simulating what the ocean waves do naturally. Within about a minute, they scooped up the hay, and guess what! About 95% of that oil attached itself to the hay and was easily removed! They then put in just a little more hay and that got all the rest of the oil out! They went onto explain how even if the oil comes ashore, it's attached to the hay and can be easily scooped up, put in a pile and burned. Problem solved!

I think God likes simplicity too.

Bionic Band Update

In last month's newsletter, I had an article about the Bionic Band, and many of you did go to cultivate.mybionicband.com, saw the demonstrations and learned how it works ,and many also bought one. Well, at least some of you know about this

now. It really does give you more energy, strength, and balance, and for many, relieves pain! I also noticed more clarity of thinking. My secretary Linda gave one to her mom, who is 75 years old. Her mom said she has more energy, is experiencing fewer side effects from her medications, her hair is starting to come back thicker again, and she can even open bottles and jars by herself once more!

They're still finding new benefits to this simple band you Velcro around your wrist! If you have a pet, you can dip the small piece of stainless steel into their water bowl and when they drink the water, they experience the same benefits!

If you want to get one, you can get it online by going to the website they gave me. You find a much larger selection there and you'll get it much faster. The bands are \$55.00 plus shipping. That web address is:

<http://cultivate.mybionicband.com>

Or if you want, I have some here, but no choice of colors. Just let me know your wrist size (how many inches around) They're also \$55.00 directly from me, but it comes with a DVD and I pay the shipping (\$50.00 each for two or more bands).

Need some money? This company is always looking for more distributors, but you'll never find the Bionic Band sold at Wal-Mart or anything because it's all multi-level marketing only. Now when I first started doing this, I didn't understand much. I just wanted to let people know about these. I still don't understand everything about how the marketing works but I can say this. I know a guy (Marv) who's only two notches above me in this multi-level marketing of these Bionic Bands (and he's a Christian), who used to sell RV's and did pretty well at it. But now, he and his wife just drive around in his RV going around to these various shows (mostly on the weekends) selling these Bionic Bands. He recently told me how he just celebrated his 1st. year anniversary of doing this. Only one year? Now I've just learned he only did his first show demonstrating these last fall! That was only a few months ago, and he's doing better with what he's doing now with the Bionic Bands than when he was selling RV's!

And then there's Stan, my direct up-line guy. Also a strong Christian. Stan must have been doing this less time than Marv. I don't think Stan fully understands how all this works either, but the last time he ordered more Bionic Bands from the company, he ordered \$10,000 worth! That's more than I make in an entire year with this ministry!

Now, I just stumbled into this Bionic Band thing. But maybe the Lord gave me the nudge. And maybe, it's because many of you are hurting too. I don't have the time to run a business and the ministry at the same time. You might be in the same boat. But since most of the Bionic Band business is on auto-pilot (on the internet), this frees me up to stay full time in the ministry. Might be the same for you guys. And even if you get to the point a few months from now to where you're just out there talking to people and helping them with the Bionic Band, this could open up many witnessing situations for you which you've been called to do in the first place! Your own ministry! Example: You could explain to people how God created the Earth with Adam & Eve at 7.83 Hertz, but man with his technologies in these last days messed everything up through thousands of other frequencies (sins and counterfeit ways of getting to heaven), and how we can get back to God and his plan for us through Jesus Christ (just a quick example).

Remember, the love of money is the root of all evil (1st. Tim. 6:12). So if your motive is to obtain money for money's sake, this would be wrong! Same if your desire is to obtain things in

the here and now for yourself. But if you need to survive and pay your bills, or just want to serve the Lord, or help a ministry doing the same, it's just a tool in the here and now to get people saved for all eternity before the rapture takes place.

Again, you can check out the websites given or if all you have is a phone and wish to learn more, you can call the toll free number given below.

That number is:

1-800-549-0105

Ext. 972 (about pain relief)

Ext. 971 (about strength & balance)

Ext. 978 (about the product overview)

Ext. 977 (for distributors wanted)

If you received a Bionic Band DVD last month, the phone number was incorrect. Use the number above. I guess there's something the Bionic Band can't do – prevent typos!

NOTE... I noticed when going from one extension to the next, a voice prompt asks you to push 5 on your phone, then asks you to put in the 4 digit number, but there's really only 3, so just put in the 3 digits listed above. Also, if you would like to obtain a free DVD about all this, simply ask me for one. Just ask for the DVD on **The Bionic Band**.

30 Club

Maybe you're unable to catch the broadcast but would still like to keep up with what's going on.

Here's a great way to do that. We have what's called our 30 Club. Anyone wishing to help support this ministry with a monthly gift of \$30.00 or more each month, may upon request, start receiving everything I air throughout the entire month. Sometimes these are on a CD but most of the time these are DVDS. Normally, DVDS cost \$20.00 each and CDS are \$5.00 each so this is not only a great deal, but it also helps support this ministry. So just let me know when you write if you'd like to become a part of the 30 Club. Thanks!

Ending Note...

Again, I just want to say THANK YOU so much to those of you who help to support this ministry through your prayers and gifts of support. Support has dropped because of the economy, yet each month I have these airtime bills that come in which must be paid, so any kind of monthly support from you guys would be greatly appreciated. And please don't go thinking someone else will do this because they're thinking the same way you are. Meanwhile, if there's anything I can do for you, I'm available 24/7.

Yours because His:
